RE: 2040 Transportation Plan

Dear Name:

As the Metropolitan Planning Organization (MPO) for the Lima Urbanized Area, the Lima-Allen County Regional Planning Commission (LACRPC) is required by federal law to facilitate the public transportation process as well as develop and implement a long range transportation plan with its regional partners.

Please be advised that this office acting as the MPO is now soliciting eligible projects for inclusion within the Agency's 2040 Transportation Plan update. Eligible projects can include roadway, transit, freight, bikeway and pedestrian projects. Eligible projects may also include construction and rehabilitation of existing facilities and signalization, as well as, coordination of and new transit/paratransit services. Projects typically require a 20% local dollar match.

As federal and state planning requirements have grown increasingly complex under the new FAST Act legislation, the MPO is requesting that local project sponsors interested in furthering area projects including those identified in the current 2040 Transportation Plan send preliminary project specifications (project scope including any phasing, fiscal year, project termini, estimated costs and expected project impact) to the LACRPC for consideration no later than December 19, 2017. Should you have any questions or comments, please feel free to contact Thomas M. Mazur at 419-228-1836 or tmazur@lacrpc.com.

Respectfully,

Thomas M. Mazur
