5. FINAL CITY OF LIMA COMPREHENSIVE PLAN- VISION 2040

LACRPC has not received any public comments on the Vision 2040 Plan and having made its way through the committee structure it is ready for final approval and subsequent recommendation to the Lima City Council. The DRAFT is also circulating through the City of Lima public process and all if any comment received from that process will be included and considered.

Shane also added that there have been discussions about the creation of a countywide plan. As LACRPC takes part in the creation of more township, village, city, etc comprehensive plans the overlap has become more obvious which has led to the discussion of creating a Lima-Allen County Plan.

6. DRAFT VILLAGE OF ELIDA COMPREHENSIVE PLAN

The Village of Elida requested an update to their Comprehensive Plan. Near the end of creating the update Elida requested a survey be completed as well to update public input and opinion. A survey was created and distributed online (24 responses) in addition to a physical copy being sent out in their utility bills (130 responses). The results were added as an appendix to the report. The report in its entirety is available on the LACRPC website. One point gathered from the survey worth highlighting is the lack of awareness of the public transportation resources available to Elida residents.
