PREAMBLE

A RESOLUTION: TO PROVIDE FOR THE DIVISION OF THE RICHLAND TOWNSHIP, ALLEN COUNTY, OHIO, INTO DISTRICTS FOR THE PURPOSE OF LIMITING AND THE REGULATION OF HEIGHT, BULK AND LOCATION, INCLUDING PERCENTAGE OF LOT LINES AND AREA AND DIMENSIONS OF YARDS, COURTS AND OTHER OPEN SPACES AND THE USES OF BUILDINGS, OTHER STRUCTURES AND TO PROVIDE PROCEDURE FOR THE CHANGE OF SUCH DISTRICTS AS MAY FROM TIME TO TIME BE REQUIRED.

The Zoning Commission of Richland Township, County of Allen, State of Ohio has certified to the Trustees thereof a zoning text as amended and map for the districting of the Township according to the use of buildings and other structures and of premises. The Township has determined that in the interest of promoting the public health, safety, convenience, comfort, prosperity and general welfare, it is necessary that it regulate and restrict the location of buildings and other structures and of premises to be used for trade, industry, residence and other specified uses. It is therefore necessary for Township Trustees to provide for the districting of the Township into such areas as are required to carry forth the intention heretofore expressed. It is also therefore necessary to provide regulations for each of such districts, designating the kinds or classes of trades, industries, residences or other purposes for which buildings or other structures or premises may be permitted to be erected, altered or used.

The Board of Trustees of Richland Township authorized a public hearing to be held to address the Resolution as amended and certified thereto by the said Zoning Commission on the ____ day of _____. Set the date of ____, ____ at _____ o'clock p.m. Eastern Standard Time in the Township House of the said Township located at 8435 N. Dixie Highway, Bluffton, Ohio 45817, as the time and place for the said public hearing.

The Clerk of the Township had caused to be published in the Bluffton News and the Lima News, newspapers of general circulation in Richland Township, a legal notice of the time, place and subject of the said hearing at least thirty (30) days in advance of the date thereof, as set forth hereinbefore. During the period of thirty (30) days next following the publication of the legal notice as hereinbefore set forth, a complete text as amended and zoning map or a copy thereof of this Resolution, as submitted by the Zoning Commission was on file for public examination in the office at the Richland Township House.

Upon public hearing and after consideration of the matter, it is hereby determined by the Trustees that it would be conducive to the public interest to proceed with the plan as amended and proposed by the Planning Commission. The Planning Commission has approved this Resolution establishing a general and comprehensive zoning text and map as amended for Richland Township.

ARTICLE 11A

PLANNED UNIT DEVELOPMENT DISTRICTS

11A.0 PURPOSE

The Township recognizes residential and special use Planned Unit Developments (PUDs) as integral to long-term development strategies. The purpose of the PUD districts is to provide for residential uses and/or other specific development activities not addressed in the standard districts when it can be demonstrated that such a district furthers the intent of the Comprehensive Plan, pursues creative planning and design, and responsibly addresses integration into its surroundings.

PUDs are to incorporate unique and creative designs such as architectural themes, landscaping themes, clustering and conservation of land, integration of natural features, traffic calming measures and minimization of signage. Developments are to incorporate traffic mitigation strategies with an emphasis on defining proper relationships between buildings and land uses, developing them in a coordinated manner.

Residential PUDs (R-PUDs) are intended to further areas of low and moderate density and associated land uses considered an integral part of the development they serve. R-PUDs will provide greater design flexibility when specific design elements are included and documented in the Overall Development Plan (ODP) of the R-PUD. The inclusion of certain architectural and landscaping themes, the integration of natural features and the conservation of land are all expected elements of the required ODP. R-PUDs are expected to incorporate traffic mitigation strategies/techniques. The R-PUDs ODP should define the proper relationship between residential structures (and accessory uses), public/private infrastructure and the natural surroundings.

Special Use PUDs (SP-PUDs) are intended to further the incorporation of manufacturing, retail, service and limited residential and institutional activities within the community. SP-PUDs will provide greater design flexibility when specific design elements are included and documented in the ODP of the SP-PUD. The inclusion of certain architectural and landscaping themes, the integration of natural features, the conservation of land and the minimization of signage and traffic calming are all expected elements of the required ODP. SP-PUDs are expected to incorporate traffic mitigation strategies/techniques with an emphasis placed on maintaining the existing Level of Service (LOS) on adjacent roadways. The SP-PUDs ODP should define the proper relationship between residential/commercial/institutional structures, proposed economic activities and natural surroundings as well as its impact on the built and human environment.

11A.1 PERMITTED USES IN THE R-PUD DISTRICT

11A.1.1 Permitted uses and development standards shall be established at the time of rezoning the property and must be identified as the conditions upon which the district is approved. Any development standards not explicitly addressed shall conform to standard district regulations. Any use not so designated shall be prohibited unless it is determined to be substantially similar to the approved uses and is in character with the proposed development.

11A.1.2 Permitted uses may include one or more of the following: low to medium density (less than four (4) units per acre gross density) residential dwellings,

playgrounds and recreational facilities including golf courses, country clubs, conservation areas, nature preserves or public parks.

11A.1.3 The Zoning Commission may approve additional uses prior to the Final Plat.

11A.2 GENERAL PROVISIONS

11A.2.1 The owner or owners of any tract of land may submit to the Zoning Commission a plan for the use and development of the entire tract of land for residential and allied purposes. The ODP shall be studied and presented before a public hearing. Notice and publication of such public hearings shall conform to the procedures prescribed for hearings on the changes and amendments. If the Zoning Commission approves the plans, they shall be submitted to the Trustees for consideration and action. The approval and recommendations of the Zoning Commission shall be predicated upon a report, filed by the applicant, which documents the rationale and contains the specific evidence and facts showing that the proposed R-PUD project meets with the following conditions: (a) the proposed development plan shall specifically document the purpose of the development and the intended use of the land in an overall pattern of buildings, greenery, parking and amenities; (b) the proposed development plan shall provide satisfactory documentation that the property adjacent to the area included in the plan will not be adversely affected; (c) the proposed development plan shall document all ownership and maintenance agreements to include any common areas, streets, swimming pools, lakes/ponds, golf courses, etc.; (d) the proposed development plan shall demonstrate compatibility with the uses permitted in the district in which the development is proposed to be located; and, (e) the proposed development plan shall document the maximum density and intensity of land uses within the proposed district in order to identify the parameters of all pertinent design criteria requirements.

11A.2.2 R-PUDs shall adhere to the Allen County Storm Water & Sediment Control Regulations (SWSCR) and Township Storm Water Management Plans (SWMP) as applicable.

11A.2.3 The configuration of lots, public roads and private drives/service roads shall be coordinated with the Allen County Subdivision Regulations and Access Management Regulations as applicable.

11A.2.4 A zoning certificate may be issued, even though the use of land, the location and height of buildings to be erected in the area and the yards and open space contemplated by the plan do not conform in all respects to the standard district regulations.

11A.3 SPECIFIC DESIGN CRITERIA FOR R-PUD DISTRICT

12A.3.1 The R-PUD district shall be a minimum of fifteen (15) acres in size.

11A.3.2 The R-PUD shall have an open space design that reflects a minimum of twenty percent (20%) of the tract to be developed.

11A.3.3 The R-PUD shall utilize a landscaping and buffering plan per the requirements of this document as identified elsewhere in this text. The landscaping and any

required buffering shall be designed by a licensed landscape architect in order to achieve the necessary aesthetic balance between the PUD and the surrounding area.

- 11A.3.4 The R-PUD shall provide sufficient parking to accommodate the demands of its residential and any ancillary uses as indicated elsewhere in this document.

- 11A.3.4.1 The R-PUD shall provide one (1) off-street parking area for each three (3) people of capacity plus one (1) for each employee when determining the required parking for all common areas including community rooms, outdoor swimming pools, recreational/sports facilities, etc.

- 11A.3.4.2 The R-PUD shall establish suitable evergreen landscaping as a buffer for all off-street parking areas.

- 11A.3.5 R-PUDs are expected to incorporate various ancillary uses and structures in their design. The following are specific design criteria that shall be incorporated in the respective development.

- 11A.3.5.1 Private swimming pools, detached garages/sheds, hot tubs, sport courts, tennis courts, basketball courts, gazebos, play structures or other similar structures as determined by the Zoning Inspector shall be classified as accessory structures.

- 11A.3.5.2 Accessory structures shall be subordinate to the principal permitted use and respective principal structure. Accessory structures shall be located to the rear or side of the principal structure. No accessory structures shall be located in front yards unless specifically approved during the design review process.

- 11A.3.5.3 All utilities and service structures shall be screened with landscaping to the maximum height of the unit.

- 12A.3.5.4 Accessory structures may not encroach on any platted easement unless the Allen County Engineer approves of such encroachment.

- 11A.3.6 The design and construction of publicly dedicated streets shall be coordinated with the Allen County Subdivision Regulations and Access Management Regulations. In order to adequately address the Allen County Access Management Regulations, the design of private drives or internal service roads such as in condominiums shall be presented to the Allen County Engineer for review.

- 11A.3.7 In order to adequately address the Allen County Access Management Regulations, all R-PUD ODPs shall address the following driveway and sight visibility standards:

- 11A.3.7.1 All multi-family and condominium roads/drives shall be designed to meet the minimum intersection sight distances as established by the Ohio Department of Transportation's (ODOT's) Location and Design (L&D) Manual sections on Intersection Sight Distance (ISD), Vertical ISD and Horizontal ISD. These sight distances are to be

shown on the proposed plan. If it is determined in an approved Traffic Impact Study for the development or by an engineer designing the driveway that it is not feasible to obtain those required intersection sight distances, then the driveway shall be designed to meet the preferred safe stopping distances provided for in the ODOT L&D Manual. All such exceptions are subject to the approval of the Allen County Engineer.

- 11A.3.7.2 Two (2) access points are required for developments with thirty (30) or more dwelling units to ensure adequate fire protection and access for emergency medical services.
- 11A.3.7.3 All development road/drive centerline angles should be designed as close as possible to ninety (90) degrees. In no case shall the driveway be less than seventy-five (75) degrees.
- 11A.3.7.4 All multi-family, condominium, manufactured home or mobile home park developments shall be designed so as vehicles are traveling in a forward motion when entering or leaving.
- 11A.3.7.5 All roads/drives must provide for and maintain a sight visibility triangle as illustrated in Illustration I. Structures, landscape plantings, fences or signs other than roadway signs are not permitted in this area. The Zoning Inspector may permit the placement of objects in the required sight visibility triangle area provided that they do not project into the clear vertical space between the height of thirty (30) inches and ten (10) feet as measured from the pavement.
- 11A.3.7.6 Maximum driveway width shall be thirty-six (36) feet as measured from the right-of-way line. For curbed driveways this width is measured from the back of the curb. Maximum driveway lane width shall be twelve (12) feet.
- 11A.3.8 The R-PUD shall utilize a lighting plan in order to provide the level of illumination necessary for adequate, safe and efficient movement of vehicles and persons without affecting neighboring properties. The lighting plan shall be designed by a licensed electrical engineer in order to achieve the necessary aesthetic balance between the PUD and the surrounding area. The following standards shall be met:
 - 11A.3.8.1 All multi-family or condominium clusters with five (5) or more exterior parking spaces are to be illuminated.
 - 11A.3.8.2 All vehicular use and pedestrian pathways shall not drop below 0.5 foot candles. For design purposes the Light Loss Factor (LLF) shall be calculated using the Illuminating Engineering Society of North America (IESNA) latest standards.
 - 11A.3.8.3 Light originating at a site shall not be permitted ten (10) feet beyond the perimeter of the site.

11A.3.8.4 All outdoor lighting shall be designed as to minimize light trespass and the impact of glare on all surrounding properties and public right-of-ways.

11A.3.8.5 All exterior lighting shall be demonstrated on the plan submittal.

11A.4 PERMITTED USES IN THE SP-PUD DISTRICT

11A.4.3 Medium and high density residential structures not to exceed sixteen (16) units per acre may be allowed as a conditional use provided that: all residential uses and/or development activities including multi-family and condominium uses as well as common areas account for less than twenty percent (20%) of the total SP-PUD area; meet all regulations as defined elsewhere in the R-PUD District standards; the residential component is included as an integral part of the SP-PUD; and, where supporting accessory uses, structures and public infrastructure are available/provided.

11A.4.4 The Zoning Commission or Board of Zoning Appeals may approve additional uses prior to the Final Plat.

11A.5 GENERAL PROVISIONS

11A.5.1 The owner or owners of any tract of land may submit to the Zoning Commission an ODP for the use and development of the entire tract of land. The ODP shall be studied and presented before a public hearing. Notice and publication of such public hearings shall conform to the procedures as prescribed elsewhere in this Resolution. If the Zoning Commission approves the plans, they shall be submitted to the Trustees for consideration and action. The approval and recommendations of the Zoning Commission shall be predicated upon a report, filed by the applicant, which documents the rationale and contains the specific

evidence and facts showing that the proposed SP-PUD project meets with the following conditions: (a) the proposed development plan shall specifically document the purpose of the development and the intended use of the land in an overall pattern of streets, drainage, buildings, greenery, parking and amenities; (b) the proposed ODP shall provide satisfactory documentation that the property adjacent to the area included in the plan will not be adversely affected; (c) the proposed development plan shall document all ownership and maintenance agreements to include any common areas, streets, swimming pools, lakes/ponds, recreational/sports facilities, etc.; (d) the proposed development plan shall demonstrate compatibility with the uses permitted in the district in which the development is proposed to be located; and, (e) the proposed ODP shall document the maximum density and intensity of land uses within the proposed district in order to identify the parameters of all pertinent design criteria requirements.

 - 11A.6.4.1 All driveways shall be designed to meet the minimum intersection sight distances as established by the ODOT L&D Manual sections on ISD, Vertical ISD and Horizontal ISD. These sight distances are to be shown on the proposed plan. If it is determined in an approved Traffic Impact Study for the development or by an engineer designing the driveway that it is not feasible to obtain those required intersection sight distances, then the driveway shall be designed to meet the preferred safe stopping distances provided for in the

ODOT L&D Manual. All such exceptions are subject to the approval of the Allen County Engineer.

No lot, yard, parking area, or other space shall be reduced in area or dimension if such reduction has the effect of making the lot, yard, parking area, or other space less than the minimum required by this Resolution. Furthermore, any lot, yard, parking area, or other space which is already less than the required minimum shall not be reduced further. However, nothing in this section shall be interpreted to limit the power of the Board of Zoning Appeals in the granting of variances under this Resolution.

12.4 CONSTRUCTION IN EASEMENTS

Easements for installation, operation and maintenance of utilities and drainage facilities are reserved as shown on each plat when recorded or otherwise established. Within these easements, no permanent building or structure shall be placed or permitted which may damage or which may interfere with the installation, operation, and maintenance of such utilities or which may change the normal direction of flow of drainage channels within the easement. The easement area of each lot, and any improvements within it, shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility is responsible.

12.5 PARKING AND STORAGE OF VEHICLES AND TRAILERS

No commercial trucks in excess of one (1) ton, to include commercial tractors, automobiles, trucks, buses, house trailers, semi-trailers, or recreational vehicles shall be parked or stored on any property or upon a public roadway within a residential zoning district other than in a completely enclosed building, except those commercial vehicles conveying the necessary tools, materials, and equipment to a premises where labor using such tools, materials, and equipment is to be performed during the actual time of parking.

No automotive vehicles or trailers of any type without current license plates shall be parked or stored on any residential property other than in a completely enclosed building. A maximum of one (1) boat and/or one (1) unoccupied recreational vehicle may be stored in either the rear or side yard of any residentially zoned property if it has a current license, meets the requirements of this Resolution for accessory structures, and is screened according to the requirements of this Resolution.

- 12.9.5 All fences are to be considered structures for the purposes of constructing or siting a fence/wall except where said fence is comprised in such a manner that fifty percent (50%) of the surface area is open as in a split rail design or cyclone fence in which case no setback is required, although a permit is required.

12.10 YARD REQUIREMENTS FOR MULTI-FAMILY DWELLINGS

Multi-family dwelling shall be considered as one (1) building for the purpose of determining front, side, and rear yard requirements. The entire group as a unit shall require one (1) front, one (1) rear, and two (2) side yards as specified for dwellings in the appropriate district. Each individual building shall meet all yard requirements for the appropriate district as though it were on an individual lot.

12.11 REGULATION OF AGRICULTURAL ACTIVITIES

The Township has no power to regulate agriculture, buildings or structures, and dairying and animal and poultry husbandry on lots greater than five (5) acres. However, pursuant, to Section 519.21 of the Ohio Revised Code, agriculture in Richland Township is restricted from within any platted subdivision; in any area consisting of fifteen (15) or more lots approved under section 711.131 of the Ohio Revised Code that are contiguous to one another; and, on lots one (1) acre or less in size.

12.12 EXCEPTIONS TO HEIGHT REGULATIONS

The height limitations contained in the Official Schedule of District Regulations do not apply to spires, belfries, cupolas, antennas, windmills, water tanks, ventilators, chimneys, or other appurtenances usually required to be placed above the roof level and not intended for human occupancy except where the height of such structures will constitute a hazard to the safe landing and take-off of aircraft at an established airport.

12.13 ARCHITECTURAL PROJECTIONS

Open structures such as porches, canopies, balconies, platforms, carports, covered patios, and similar architectural projections shall be considered parts of the building to which attached and shall not project into the required minimum front, side, or rear yard.

- 12.14.1 On a corner lot at the intersection of two (2) streets in any district, nothing shall be installed, erected, placed, planted, or allowed to grow in such a manner as to impede vision materially between a height of two and one-half (2½) feet and ten (10) feet above the center line grades of the intersecting streets in the area bounded by the right-of-way lines of such corner lot and a line joining points along said street lines sixty-five (65) feet from the edge of roadway pavement; and,
- 12.14.2 On the right-of-way of any street, in any district, nothing shall be installed, erected, placed or planted.

12.15 REQUIRED REFUSE COLLECTION AREAS

The storage and collection of garbage and refuse within each district shall be conducted so as to create no health hazards, rodent harborage, insect breeding areas, fire hazards or air pollution. In all Residential 1 and 2 Districts and Manufactured Home Parks, all garbage/refuse shall be stored in rust resistant, water-tight, fly-tight, rodent-proof containers. In Manufactured Home Parks these containers shall be located no more than one hundred fifty (150) feet from any manufactured home lot, and shall be collected at least once weekly.

- 12.15.3 Storage areas in residential districts shall utilize such additional screening as required in this Resolution; and,
- 12.15.4 Pursuant to Section 3745-27-03 of the Ohio Administrative Code the temporary storage of solid wastes in excess of seven days, or temporary storage of any solid wastes where such storage causes a nuisance or health hazard shall be considered open dumping a reportable condition to the Ohio Environmental Protection Agency and therefore prohibited.

12.16 OBJECTIONABLE, NOXIOUS, OR DANGEROUS USES, PRACTICES, OR CONDITIONS

No land or building in any district shall be occupied or used in any manner which creates or contributes to the existence of conditions which are dangerous, injurious, harmful, noxious, or objectionable, or which may otherwise adversely affect surrounding areas or adjoining premises, except that any use permitted by this Resolution may be undertaken or maintained if acceptable measures and safeguards to reduce any dangerous or objectionable conditions to acceptable limits, as established in this Section, are properly exercised. Specifically, the occupation or use of any land or building in any district shall be in violation of this Resolution if one or more of the following conditions is found to exist any time:

- 12.16.1 The use or storage of flammable or explosive materials not adequately protected by fire-fighting and fire-protection equipment or by such safety devices as are normally required for such activities;
- 12.16.2 Activities involving the use and storage of flammable and explosive materials are not removed from adjacent facilities or activities to a distance compatible with the potential danger involved;
- 12.16.3 Radioactivity or air pollution present in violation of the regulations of the Ohio Environmental Protection Agency;

The storage or accumulation of all refuse materials including garbage, trash, rubbish and/or waste shall conform to Section 12.15 of this Resolution.

12.17 ASSURANCE REQUIREMENTS AND PLANS

Prior to the issuance of a Zoning Permit, the Zoning Inspector may require the submission of written assurances and plans indicating the manner in which dangerous and objectionable aspects or elements of processes or operations entailed in certain uses or occupations are to be eliminated or reduced to acceptable limits and tolerances.

12.18 ENFORCEMENT PROVISIONS

Any occupancy, use, conditions or circumstances existing in violation of Section 12.16 and 12.17 of this Resolution shall constitute a violation of this Resolution and be subject to the enforcement procedures contained in this Resolution.

12.19 TEMPORARY USES

The following regulations are necessary to govern certain uses which are of a non-permanent nature. For such uses requiring temporary Zoning Permits, at least seven (7) days before the instigation of such use, an application for a Zoning Permit shall be made to the Zoning Inspector, which shall contain a graphic description of the property to be used, a description of the proposed use, and a site plan, with sufficient information to determine the yard, setback, parking, and sanitary facility requirements for the proposed temporary use.

The following uses are deemed to be temporary uses and shall be subject to the specified regulations and time limits which follow, as well as the regulations of any district in which they are located:

- 12.19.1 Real estate sales offices, which shall contain no living accommodations, shall be permitted within any district for any new subdivision for a period of one (1) year, except that two (2) six (6) month extensions may be granted if conditions warrant. Such offices shall be removed upon the completion of the sales of the lots therein, or upon the expiration of the Zoning Permit, whichever occurs first;
- 12.19.2 Temporary buildings, offices, and equipment and storage facilities required in conjunction with construction activity may be permitted within any district for a period of one (1) year, except that six (6) month extensions may be granted if construction is substantially underway. Such uses shall be removed immediately upon completion of the construction, or upon expiration of the Zoning Permit, whichever occurs first;
- 12.19.3 Temporary sales and services may be permitted within parking areas within any commercial district. A Zoning Permit valid for a period not to exceed four (4) consecutive days shall only be issued three (3) times within any twelve (12) month period to any individual or organization. The application for the temporary Zoning Permit shall be accompanied by written permission of the property owners, and shall be prominently displayed at the site. The Zoning Inspector shall not issue a permit for such temporary use if it is determined that it encroaches upon more than twenty-five percent (25%) of the required parking area;
- 12.19.4 Temporary retail sales and services, such as sales of plants, flowers, arts and crafts, farm produce, or similar items on lots other than parking lots, including

any lot on which an existing business is operating or on which a business is vacated, may be permitted for any for-profit individuals or organizations in any commercial district. A Zoning Permit valid for a period not to exceed two (2) consecutive days shall only be issued three (3) separate times for any particular lot within any twelve (12) month period, and not more than one (1) permit may be issued at the same time for any lot. The applicant must submit a current vendor's license or transient vendor's license, and a written statement from the property owner authorizing such use. This section shall not be interpreted to prohibit any such use in any case where a valid covenant or deed restriction specifically authorizes such use. In any case, the Zoning Permit shall be prominently displayed at the site; and,

- 12.19.5 Garage sales, which for the purposes of this section shall include yard sales, barn sales, and similar activities, may be permitted within any district in which dwellings are permitted. Any individual or family may conduct one (1) such sale within any twelve (12) month period upon the property at which they reside for a period not to exceed three (3) consecutive days without obtaining a Zoning Permit, so long as the provisions of this Resolution pertaining to signs and parking are observed. Garage sale permits shall only be issued to groups of families, neighborhood organizations and community organizations two (2) times within any twelve (12) month period and shall not exceed a period of three (3) consecutive days, so long as the provisions of this Resolution pertain to signs and parking are observed.

12.20 LANDSCAPING & SCREENING PROVISIONS

Screening or buffering in compliance with the provisions of this section shall be provided for any permitted or conditionally permitted non-residential uses which abut any residential district, in addition to setback and yard requirements provided elsewhere in the Resolution. Applicants for a Zoning Permit may request a variance from yard or setback requirements in conjunction with a plan for screening, which the Board of Zoning Appeals may consider by weighing the relationship of the proposed screening plan and the requested dimensional variance with respect to their joint impact upon neighboring properties. Such requested variance for a conditionally permitted use shall be incorporated in the conditional use procedure specified in Article 16 of this Resolution. The following provisions shall apply with respect to screening.

- 12.20.1 Screening shall be provided for one (1) or more of the following purposes:
- a. A visual barrier to partially or completely obstruct the view of structures or activities;
 - b. An acoustic screen to aid in absorbing or deflecting noise; and/or,
 - c. A physical barrier to contain debris and litter.
- 12.20.2 Screening may consist of one (1) of the following, or a combination of two (2) or more, as determined by the Board of Zoning Appeals, in the event of an appeal, variance, or conditional use:
- a. A solid masonry wall;
 - b. A solidly constructed wooden decorative fence;

- c. A louvered fence;
- d. A chain link fence;
- e. Dense vegetative plantings; and/or,
- f. Landscaped mounding.

12.20.3 Height of screening shall be in accordance with the following:

- a. Visual screening walls, fences, plantings, or mounds shall be a minimum of six (6) feet in height in order to accomplish the desired screening effect. Plantings shall be a minimum of four (4) feet in height at the time of planting; and,
- b. A dense vegetative planting with a minimum height of four (4) feet at planting and a mature height of at least six (6) feet or greater, or a solidly constructed decorative fence, shall be permanently maintained along the mutual boundary of an accessory parking area and adjacent land zoned for residential uses, except for the portion of such boundary located within a required front yard.

12.20.4 Screening for purposes of absorbing or deflecting noise shall have a depth of at least fifteen (15) feet of dense planting or a solid masonry wall in combination with decorative plantings. The height shall be adequate to redirect noise as determined by the Board of Zoning Appeals in relation to the nature of the use.

12.20.5 Whenever required screening is adjacent to parking areas or driveways, such screening shall be protected by bumper blocks, posts, or curbing to avoid damage by vehicles; and,

12.20.6 All screening shall be trimmed, maintained in good condition, and free of advertising or other signs, except for directional signs and other signs for the efficient flow of vehicles.

12.21 **LANDSCAPING MOUNDS, RAISED BEDS, AND OTHER EARTH WORKS**

No land shall be graded, cut, or filled so as to create a mound with a slope exceeding a vertical rise of one (1) foot for each three (3) feet of horizontal distance between abutting lot lines. Major cuts, excavation, grading, and filling, where the same materially changes the site and its relationship with the surrounding areas or materially affects such areas, shall not be permitted if such excavation, grading and filling will result in a slope exceeding a vertical rise of one (1) foot for each three (3) feet of horizontal distance between abutting lot lines or adjoining tracts of land, except where the Zoning Inspector has determined that adequate provision is made to retain runoff and eliminate the negative consequences of standing water.

12.21.1 Maximum height of mounds shall be 6ft.

12.21.2 Setback requirements:

- a.) Front Yard: 10 feet from the right-of-way for mounds with 6 feet being the maximum amount of height.

- b.) Any mounds located on corner lot shall be required to have the same setback from all street right-of-way lines as required for the sight triangle in which such structures are located. See Illustration "I" page A-9.
 - c.) Side Yard: 10 feet from the side yard property line.
 - d.) Rear: 10 feet from the rear yard property line.
- 12.21.3 Mound cannot be created with a slope that exceeds a vertical rise of one foot for each three feet of horizontal distance abutting setback lines.
 - 12.21.4 Cannot interfere with or impede in such a manner as to impede vision to area roadways.
 - 12.21.5 All berms, Mounds, Raised Beds, are to be considered structures and a permit is required.
 - 12.21.6 For a newly created mound that is less than 18" tall, from existing grade elevation, the 10-foot setback are not required, the slope may start at property line and/or right-of-way line, with slope limitations remaining at maximum of one foot of rise per three feet for horizontal distance, with a maximum area of 100 square feet-where slope begins. There is no permit required for this scenario.

Such ponds are to be designated for year enjoyment and to further such activities such as wildlife habitats, swimming, fishing, ice skating, etc. Such ponds shall not engage in commercial uses nor in any commercial recreational activities.

12.23.3.5 “Commercial use ponds” require the appropriate Zoning Permit and requisite Health Department approval. Such ponds open to the public shall be subject to the safety conditions/facilities of section 11.10. such ponds must be designed by the Soil and Water Conservation Service, a licensed landscape architect, or professional engineer.

12.23.4 Ponds shall be permitted as an accessory use in all districts, provided the plans, specifications and construction meet the demands of the respective authorized and approving bodies.

12.23.5 Ponds shall not be located closer than thirty-five (35) feet from any property line and/or road right-of-way on any parcel. See Illustration K.

12.23.5.1 Ponds shall be measured from the lot line and/or road right-of-way to the perpendicular edge of the high water line. See Illustration K.

12.23.5.2 Where mounding is present, ponds shall be measured from the base of the mound to the lot line and/or road right-of-way. See Illustration K. Said mounding is subject to the conditions of Section 12.21.

12.24 REGULATION OF WIND TURBINE GENERATORS AND ANEMOMETER TOWERS

The purpose of Section 12.24.1 thru 12.24.4.2 inclusive shall be to establish general guidelines for the location of wind turbine generators (WTG) and anemometer towers in order to protect the public health, safety, comfort, and general welfare of Township residents. The Township recognizes in some specific instances, under carefully controlled circumstances, it may be in the public interest to permit the placement of wind turbine generators in certain areas of the Township. The Township also recognizes the need to protect residents from unnecessary and unreasonable visual interference and noise radiation. Recognizing that such WTG may have negative health, safety, welfare, and/or aesthetic impacts upon adjoining and neighboring uses Section 12.24 inclusive seeks to: Protect residential and agricultural areas from potential adverse impact of WTGs; Permit WTGs in selected areas by on-site residential, commercial, or industrial users, subject to the terms, conditions, and provisions hereof; Ensure the public health, welfare, and safety of the Township’s residents in connection with WTGs; and, Avoid potential damage to real and personal property from the WTGs or anemometer towers or the failure of such structures and related operations.

- 12.24.3.2 Decibel Levels. All WTGs shall operate at no more than 70 decibels. This information shall be included in a prescribed engineering report described in Section 12.24.4.2. This information shall be obtained from the manufacturer of the turbine, and all decibel readings, if necessary, shall be taken from the nearest neighboring property.
- 12.24.3.3 Additional regulations may be found in Section 12.25 Regulations of Renewable Energy Systems with respect to wind turbines. Any conflicting regulations contained herein shall default to that which is most restrictive.
- 12.24.4 A permit shall be required before construction can commence on an individual wind turbine system. As part of the permit process, the applicant shall inquire with the Allen County Planning Commission as to whether or not additional height restrictions are applicable due to the unit's location in relation to either the Allen County Airport, or the Bluffton Airport. Applicant shall then provide the Township Zoning Inspector with the following items and or information when applying for a permit:

In all districts, at any time any building, structure or use of land is erected, enlarged, increased in capacity or use, there shall be provided for every use off-street parking spaces for automobiles in accordance with the provisions of Sections 13.0 through 13.10 of this Article. A parking plan shall be required for all uses except for single or two (2) family residential uses. The parking plan shall be submitted to the Zoning Inspector as a part of the application for a Zoning Permit. The plan shall show the boundaries of the property, parking spaces, access driveways, circulation patterns, drainage and construction plans, and boundary walls, fences and a screening plan, as appropriate.

Whenever a building or use constructed or established after the effective date of this Resolution is changed or enlarged in floor area, number of employees, number of dwelling units, seating capacity, or otherwise to create a need for an increase of ten percent (10%) or more in the number of existing parking spaces, such spaces shall be provided on the basis of the enlargement or change. Whenever a building or use existing prior to the effective date of this Resolution is enlarged to the extent of fifty percent (50%) or more in floor area or in the area used, such building or use shall then and thereafter comply with the parking requirements set forth herein.

13.1 **OFF-STREET PARKING DESIGN STANDARDS**

All off-street parking facilities including entrances, exits, maneuvering areas and parking spaces shall be in accordance with the following standards and specifications:

SIGNS AND OUTDOOR ADVERTISING STRUCTURES

14.0 **PURPOSE**

The purpose of this Section is to protect the general health, safety, and welfare of the community by providing an instrument for protecting the physical appearance of the community and for encouraging high quality, effective outdoor graphics for the purposes of navigation, information and identification. Specifically, it is the intent of this section to provide businesses in the Township with equitable sign standards in accord with fair competition and aesthetic standards acceptable to the community, and to provide the public with a safe and effective means of locating businesses, services, areas, and points of interest in the Township. This section is based on the premise that signs are as much subject to control as noise, odors, debris and similar characteristics of land use, that if not controlled and regulated, can become a nuisance to adjacent properties or the community in general, or depreciate the value of other properties in the community.

14.1 **DEFINITION**

A sign is defined as any name, number, symbol, identification, description, display or illustration which is affixed to, painted on, or represented directly or indirectly upon a building, structure or other device and which directs attention to any object, product, place, activity, person, institution, organization or business. This definition includes back-lighted plastic panels or strip lighting affixed to any wall or roof where any such panels or lighting serve to identify a business and attract attention rather than to illuminate space for human activity. All signs located on land within the Township and visible from any public right-of-way or adjacent property shall comply with this section unless specifically exempted in this Article.

14.2 **ZONING PERMIT REQUIRED**

The erection or location of any sign within Richland Township shall require a Permit unless otherwise specified within this Article. Each application for a Permit to erect a temporary or permanent sign shall be accompanied by a drawing showing the design proposed, the size, style color, and lettering type, lines and symbols, method of illumination and who is responsible for construction shall be described including the exact location of the sign in relation to the building and property.

14.2.1 **Fees:** The applicant for a Permit herein shall pay such fees as is prescribed by the Richland Township Trustees. Such fees shall be prescribed annually, or more often, by the Trustees.

14.2.2 **Inspection:** All signs and billboards erected within this Township are subject to inspection, whether a Permit is required or not, prior to erection. The Township Zoning Inspector, or any other official of the Township, is hereby authorized to enter upon any property or premises to ascertain whether the provisions of this article are being complied with. Such inspection may be made at any reasonable time and the Township Zoning Inspector shall order the removal of any sign or billboard that is not maintained in accordance with the provisions of this Resolution.

14.2.3 **Removal of Signs:** The Township Zoning Inspector shall effect removal of any illegally placed sign and its supporting structures within the right-of-way of any

road within this Township, or sign for which no required Permit has been issued.

The Zoning Inspector shall reasonably retain said sign and shall attempt to notify the owner thereof of its location. If the owner of any sign fails to claim the same within forty-five (45) days after notice by the Zoning Inspector, said sign may be destroyed.

Any abandoned sign that no longer applies to the property on which it is situated, or a dangerous or materially, electrically or structurally defective sign shall be declared a public nuisance and the procedure for removal of signs shall be applied.

14.3 GENERAL REQUIREMENTS

The following restrictions shall apply to all signs located and erected within the Township regardless of type, style, location design or other classification.

The sign area for a sign with more than one (1) face shall be computed by adding together the area of all sign faces visible from any one (1) point. When two (2) identical sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when such faces are part of the same structure, the sign area shall be computed by the measurement of one (1) of the faces.

ARTICLE 15
NONCONFORMITIES

15.0 PURPOSE

Within the districts established by this Resolution or by amendments thereto which may later be adopted, lots, uses of land, structures, and uses of structures and land in combination exist which were lawful before this Resolution was passed or amended but which would be prohibited, regulated or restricted under the terms of this Resolution. The legitimate interest of those who lawfully established these nonconformities are herein recognized by providing for their continuance subject to regulations limiting their completion, restoration, reconstruction, extension and substitution. Furthermore, nothing contained in this Resolution shall be construed to require any change in the layout, plans, construction, size or use of any lot, structure, or structure and land in combination for which a Zoning Permit became effective prior to the effective date of this Resolution or any amendment thereto. Nevertheless, while it is the intent of this Resolution that such nonconformities be allowed to continue until removed, they should not be encouraged to survive. Therefore, no nonconformity may be moved, extended, altered, expanded or used as grounds for any other use(s) or structure(s) prohibited elsewhere in the district without the approval of the Board of Zoning Appeals, except as otherwise specifically provided for in this Resolution.

15.1 USES UNDER CONDITIONAL USE PROVISIONS NOT NONCONFORMING USES

Any use which is permitted as a conditional use in a district under the terms of this Resolution shall, without further action, be considered a conforming use.

15.2 INCOMPATIBILITY OF NONCONFORMITIES

Nonconformities are declared by this Resolution to be incompatible with permitted uses in the districts in which such uses are located. A nonconforming use of a structure, a nonconforming use of land or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this Resolution by attachment, on a building or premises, of additional signs intended to be seen from off the premises or by the addition of other uses of a nature which would be generally prohibited in the district in which such use is located.

15.3 AVOIDANCE OF UNDUE HARDSHIP

To avoid undue hardship, nothing in this Resolution shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Resolution, although nonconforming, if completed within one (1) year of the effective date of this Resolution. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction provided that the work shall be carried out diligently.

Any building or structures existing and in use as a nonconforming use on the effective date of this Resolution which shall be damaged to the extent of more than fifty percent (50%) of the cost of replacement of such structure, exclusive of foundation, shall not be rebuilt, restored or reoccupied for any use unless it conforms to all district regulations. When such a nonconforming use is damaged to the extent of less than fifty percent (50%) of the replacement cost, no repairs or rebuilding shall be permitted except in conforming with all applicable regulations of this Resolution and said restoration is completed within two (2) years of damage assessment.

15.4 CERTIFICATES FOR NONCONFORMING USES

The Zoning Inspector may, upon the Inspector's own initiative or shall upon the request of any owner, issue a certificate for any lot, structure, use of land, use of structure or use of land and structure in combination that certifies that the lot, structure or use is a valid nonconforming use. The certificate shall specify the reason why the use is a nonconforming use including a description of the extent and kind of use made of the property in question, the portion of the structure or land used for the nonconforming use and the extent that dimensional requirements are nonconforming. The purpose of this section is to protect the owners of lands or structures that are or become nonconforming. No fee shall be charged for such a certificate. One (1) copy of the certificate shall be returned to the owner and one (1) copy shall be retained by the Zoning Inspector who shall maintain, as a public record, a file of all such certificates.

15.5 SUBSTITUTION OF NONCONFORMING USES

So long as no structural alterations are made, except as required by enforcement of other codes or resolutions, any nonconforming use may, upon appeal to and approval by the Board of Zoning Appeals, be changed to another nonconforming use of the same classification or of a less intensive classification or the Board shall find that the use proposed for substitution is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Zoning Appeals may require that additional conditions and safeguards be met, which requirements shall pertain as stipulated conditions to the approval of such change, and failure to meet such conditions shall be considered a punishable violation of this Resolution. Whenever a nonconforming use has been changed to a less intensive use or becomes a conforming use, such use shall not thereafter be changed to a more intensive use.

15.6 SINGLE NONCONFORMING LOTS OF RECORD

In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this Resolution, notwithstanding limitations imposed by other provisions of this Resolution. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width or both that are generally applicable in the district provided that yard dimensions and requirements, other than those applying to area or width or both, of the lot shall conform to the regulations for the district in which such lot is located. Variance of requirements listed in Article 12 of this Resolution other than lot area or lot width shall be obtained only through action of the Board of Zoning Appeals as provided in Article 18.

15.7 NONCONFORMING LOTS OF RECORD IN COMBINATION

If two (2) or more lots or a combination of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Resolution, and if all or part of the lots with no buildings do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this Resolution and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this Resolution nor shall any division of any parcel be made which creates a lot with a width or area below the requirement stated in this Resolution.

15.8 NONCONFORMING USES OF STRUCTURES OR OF STRUCTURES AND LAND IN COMBINATION

If a lawful use involving individual structures, or of a structure and land in combination exists at the effective date of adoption or amendment of this Resolution that would not be allowed in the district under the terms of this Resolution, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- 15.8.1 No existing structure devoted to a use not permitted by this Resolution in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located;
- 15.8.2 Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Resolution, but no such use shall be extended to occupy any land outside such building;
- 15.8.3 If no structural alterations are made, any nonconforming use of a structure or structure and land in combination, may, upon appeal to the Board of Zoning Appeals, be changed to another nonconforming use provided that the Board of Zoning Appeals shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Zoning Appeals may require appropriate conditions and safeguards in accord with other provisions of this Resolution;
- 15.8.4 Any structure or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district and the nonconforming use may not thereafter be resumed;
- 15.8.5 When a nonconforming use of a structure or structure and land in combination is discontinued or abandoned for more than two (2) years (except when government action impedes access to the premises) the structure or structure and land in combination shall not hereafter be used except in conformity with the regulations of the district in which it is located; and,
- 15.8.6 Where nonconforming use status applies to a structure or structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.

- 15.8.7 Any building or structure existing prior to the adoption of this Resolution or any subsequent amendment thereto, which is a permitted use in said district but is nonconforming due to encroachment(s) of the building(s) on the property setback line(s), said building may be extended, enlarged or expanded on said property so long as such extension, enlargement or expansion does not in any way further encroach on the existing setbacks.
- 15.8.8 To avoid undue hardship, any legally sited factory-built home existing prior to the adoption of this Resolution shall be able to be replaced with a newer model provided:
- a. The structure shall be installed and permanently attached to a basement, crawl space or slab foundation system that provides adequate support of the structure's vertical and horizontal loads and transfers these forces and other imposed forces, without failure, from the structure to the undisturbed ground below the frost line;
 - b. Any factory-built housing must have all springs, tongue and axles removed;
 - c. Any factory-built housing not permanently attached to a basement or crawl space wall adjoining the perimeter of the structure must have commercially manufactured skirting completely enclosing the sited unit within thirty (30) days;
 - d. Any factory-built housing must comply with Section 4505.11 of the Ohio Revised Code governing manufactured home conversion to real property within thirty (30) days of siting and immediately thereafter verified by the Zoning Inspector;
 - e. Structures shall be in conformance with the siting requirements in effect for the district in which it is located; and,
 - f. Structures and accessory structures or uses will conform to all other regulations in effect for the district in which it is located.

15.9 TERMINATION OF NONCONFORMING USES

When any nonconforming use is discontinued or abandoned for more than two (2) years any new use shall not thereafter be used except in conformity with the regulations of the district in which it is located and the nonconforming use may not thereafter be resumed. The intent to continue a nonconforming use shall not be evidence of its continuance.

15.10 TERMINATION OF USE BY DAMAGE OR DESTRUCTION

In the event that any nonconforming building or structure is destroyed by any means to the extent of more than fifty percent (50%) of the cost of replacement of such structure, exclusive of foundation, it shall not be rebuilt, restored or reoccupied for any use unless it conforms to all regulations of this Resolution. When such a nonconforming structure is damaged or destroyed to the extent of fifty percent (50%) or less of the replacement cost, no repairs or rebuilding shall be permitted except in conformity with all applicable regulations of this Resolution and the following conditions:

- 15.10.1 A Zoning Permit pertaining to such restoration shall be applied for and issued within one (1) year of such destruction, and building shall be diligently pursued to completion; and,
- 15.10.2 Such restoration shall not cause a new nonconformity nor shall it increase the degree of nonconformance or noncompliance existing prior to such damage or destruction.

15.11 REPAIRS AND MAINTENANCE

On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done on ordinary repairs or on repair or replacement of non-bearing walls, fixtures, wiring or plumbing provided that the cubic content existing when it became nonconforming shall not be increased. Nothing in this section shall be deemed to prevent the strengthening or restoring to a safe condition any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official. Where appropriate, a Zoning Permit for such activities shall be required.

ARTICLE 16

PROCEDURES & REQUIREMENTS FOR CONDITIONAL USE PERMITS; SUBSTANTIALLY SIMILAR USES; ACCESSORY USES

16.0 GENERAL

The provisions of Sections 16.0 through 16.22 inclusive of this Resolution apply to the location and maintenance of any and all conditional uses.

16.1 PURPOSE

Toward these ends it is recognized that this Resolution should provide for more detailed evaluation of each use conditionally permissible in a specific district with respect to such considerations as location, design, size, method(s) of operation, intensity of use, public facilities requirements and traffic generation. Accordingly, conditional use permits shall conform to the procedures and requirements of Sections 16.2 through 16.10 of this Resolution.

16.2 CONTENTS OF CONDITIONAL USE PERMIT APPLICATION

- 16.3.2 Will be in accordance with the general objectives or with any specific objective of the Township's comprehensive plan and/or the Zoning Resolution;

The notice shall contain the same information as required in Section 16.6 for notices published in newspapers.

16.8 ACTION BY THE BOARD OF ZONING APPEALS

Within thirty (30) days after the date of the public hearing required in Section 16.5, the Board of Zoning Appeals shall take one of the following actions:

- 16.8.1 Approve issuance of the Conditional Use Permit by making an affirmative finding in writing that the proposed conditional use is to be located in a district wherein such use may be conditionally permitted, that all conditions for approval of such use in such district have been met, and that such use will neither result in significant negative impacts upon nor conflict with surrounding uses. Such written finding may also prescribe supplementary conditions and safeguards as specified in Section 16.9. Upon making an affirmative finding, the Board shall direct the Zoning Inspector to issue a Conditional Use Permit for such use which shall list all conditions and safeguards specified by the Board of Zoning Appeals for approval;

16.9 SUPPLEMENTARY CONDITIONS AND SAFEGUARDS

Any violation of such conditions and safeguards, when made a part of the terms under which the conditional use is granted, shall be deemed a punishable violation of this Resolution.

16.10 EXPIRATION OF CONDITIONAL USE PERMIT

A Conditional Use Permit shall be deemed to authorize only one (1) particular conditional use, and said permit shall automatically expire if such conditionally permitted use has not been instituted or utilized within one (1) year of the date on which the permit was issued or if for any reason such use shall cease for more than one (1) year.

16.11 PROCEDURE & REQUIREMENTS TO DETERMINE THAT A USE IS SUBSTANTIALLY SIMILAR

Where a specific use is proposed that is not listed or provided for in this Resolution the Board of Zoning Appeals may make a determination, upon appeal, that the proposed use is substantially similar to a specific use that is listed or provided for in this Resolution. If the Board finds that a use is substantially similar to a specific use listed in this Resolution, the substantially similar use is deemed to be a substantially similar permitted use in those districts where the specific use is a permitted use, and a substantially similar conditional use in those districts where the specific use is a conditionally permitted use.

In formulating a determination that a proposed use is a substantially similar use, the Board of Zoning Appeals shall follow the procedures relating to appeals and variances as specified in Section 17.4 of this Resolution. Upon making a determination that a proposed use is substantially similar, the Board shall notify the Township Trustees and Zoning Inspector by letter of its decision and shall include in its written findings the reasoning upon which the decision is based.

16.12 REMEDY BY APPLICATION FOR AMENDMENT

If the Board of Zoning Appeals determines that a proposed use is not substantially similar, such determination shall not be appealed to the Township Trustees but remedy may be sought by the appellant through the submission of an application for amendment as prescribed in Article 19.

16.13 STANDARDS FOR CONSIDERATION OF SUBSTANTIALLY SIMILAR USES

The following standards shall be considered by the Board of Zoning Appeals when making a determination that a use is substantially similar to a permitted or a conditional use within a specific district:

- 16.13.1 The compatibility of the proposed use with the nature and scope of adjacent uses;
- 16.13.2 The nature, predominant characteristics, and intensity of the proposed use in relation to those uses specified by this Resolution as being permitted, or in the case of a conditional use, conditionally permitted in that district; and,
- 16.13.3 The size, dimensional requirements, parking requirements, traffic generation potential and other regulatory considerations normally associated with uses as specified in this Resolution.

16.14 EFFECT OF DETERMINATION THAT A USE IS SUBSTANTIALLY SIMILAR

Should a use be determined to be substantially similar to a specific permitted or conditionally permitted use provided for in this Resolution, it shall then be permitted in the same manner and under the same conditions and procedures as the use is permitted to which it has been found to be substantially similar.

16.15 RECORD OF SUBSTANTIALLY SIMILAR USES

The Zoning Inspector shall maintain, as a public record, a listing of all uses which have been determined to be substantially similar. For each such use the record shall include the use as listed in the Resolution, the use unlisted in the Resolution about which the determination of substantial similarity was made and the dates of any actions thereupon by the Board of Zoning Appeals or the Township Trustees. This record shall also contain the same information for all uses which have been determined not to be substantially similar. The Zoning Inspector shall consult this record in the process of issuing future permits.

16.16 REGULATION OF ACCESSORY USES

The provisions of Sections 16.16 through 16.22 inclusive of this Resolution shall apply to the location and maintenance of accessory uses as herein defined.

16.17 PURPOSE

It is the purpose of Sections 16.16 through 16.22 inclusive of this Resolution to regulate accessory uses in order to promote the public health, safety and welfare. It is the intent of these sections to permit such uses to be established and maintained in a manner which makes them compatible with principal uses and harmonious with uses upon adjacent properties.

16.18 DEFINITION

"Accessory Use" means a use, object or structure constructed or installed on, above or below the surface of a parcel which is located on the same lot as a principal use, object or structure and which is subordinate to or serves the principal use, object or structure; is subordinate in area to the principal use, object or structure and is customarily incidental to the principal use, object or structure. Among other things, "Accessory Use" includes anything of a subordinate nature attached to or unattached from a principal structure or use such as fences, walls, sheds, garages, parking places, decks, poles, poster panels and billboards. Except as otherwise required in this Resolution, an accessory use shall be a permitted use.

16.19 GENERAL REQUIREMENTS

Except as otherwise provided in this Resolution, an accessory use or structure shall be permitted in association with a principal use or structure provided that:

16.19.1

- a.) On parcels up to two and one half (2.5) acres it shall be 100% or less of the gross area based on outside dimensions of the principle use or structure pending health department approval.
- b.) On parcels between two and one half (2.5) acres and five (5) acres 150% or less of the gross area based on outside dimensions of the principle use or structure pending Health Department approval.

16.19.2 On parcels of more than five (5) acres there is no limit, but must be in compliance with setback building lines and height regulations.

16.19.3 It shall not contain or be used as a dwelling unit;

16.19.4 It shall not exceed the height requirements of the principal use; and,

16.19.5 It shall meet all yard requirements of the principal use.

16.20 DWELLINGS AS ACCESSORY USES

Dwellings may be accessory uses in agricultural and residential districts if located inside the principal home or if detached as a garage apartment only if used as a residence by relatives or household servants and no rent is charged. Only one (1) accessory dwelling unit is permitted per lot. Mobile home trailers shall not be permitted as accessory uses.

16.21 ACCESSORY ELDERLY DWELLING UNIT

Notwithstanding the provisions of Sections 12.1 through 12.3 of this Resolution, an owner-occupied single-family dwelling unit may be converted to allow the incorporation of one (1) additional dwelling unit for the exclusive occupancy of an elderly household, a member of which shall be an elderly person related to the owner of the single-family dwelling unit. Such accessory elderly dwelling unit shall be wholly contained within the existing principal building or shall be attached to it by a common wall, floor or ceiling. The application for the Zoning Permit for such conversion shall be accompanied by an affidavit attesting to the owner's present occupancy of the dwelling unit and to the age and relationship of the elderly person.

16.22 RETAIL SALES AND SERVICES AS ACCESSORY USES

Retail sales and services are permitted as accessory uses when clearly incidental to the principal use. With the exception of restaurants in conjunction with a motel such uses shall be conducted wholly within the principal building. No exterior advertising or displays are permitted. These activities shall be conducted solely for the convenience of the employees, patients, patrons, students or visitors and not for the general retail public. In hospitals and clinics, these accessory uses may include drug stores, florists, gift and bookshops, restaurants, cafeterias and coffee shops, lounges, and beauty and barbershops.

ARTICLE 17

PROCEDURES & REQUIREMENTS FOR APPEALS AND VARIANCES

17.0 GENERAL

Appeals and variances shall conform to the procedures and requirements of Sections 17.1 through 17.11.8 inclusive of this Resolution. As specified in Article 17, the Board of Zoning Appeals has appellate jurisdiction relative to appeals and variances.

17.1 APPEALS

Pursuant to 519.15 of the Ohio Revised Code or as in such statute as it may hereafter be amended, appeals to the Board of Zoning Appeals concerning interpretation or administration of this Resolution may be taken by any person aggrieved or by any officer or bureau of the legislative authority of the Township affected by any decision of the Zoning Inspector. Such appeal shall be taken within twenty (20) days after the decision by filing, with the Zoning Inspector and with the Board of Zoning Appeals, a Notice of Appeal specifying the grounds upon which the appeal is being taken. The Zoning Inspector shall transmit to the Board of Zoning Appeals all the papers constituting the record upon which the action appealed was taken.

17.2 STAY OF PROCEEDINGS

An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Inspector from whom the appeal is taken, certifies to the Board of Zoning Appeals after the Notice of Appeal is filed with the Inspector that by reason of facts stated in the application, a stay would in the Inspector's opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Zoning Appeals or by a court of record on application, on notice to the Zoning Inspector from whom the appeal is taken on due cause shown.

17.3 VARIANCES

The Board of Zoning Appeals may authorize upon appeal in specific cases such variance from the terms of this Resolution as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Resolution would result in unnecessary hardship. No nonconforming use of neighboring lands, structures or buildings in the same district and no permitted or nonconforming use of lands, structures or buildings in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of convenience or profit but only where strict application of the provisions of this Resolution would result in unnecessary hardship.

17.4 APPLICATION AND STANDARDS FOR VARIANCES

Except as otherwise permitted in this Resolution, no variance in the strict application of the provisions of this Resolution shall be granted by the Board of Zoning Appeals unless the Board shall find that the written application for the requested variance contains all of the following requirements:

17.4.1 Name, address and phone number of applicant(s);

- 17.4.2 Legal description of property;
- 17.4.3 Description or nature of variance requested;
- 17.4.4 A fee as established by Resolution; and,
- 17.4.5 Narrative statements establishing and substantiating that the variance conforms to the following standards:
- a. The granting of the variance shall be in accord with the general purpose and intent of the regulations imposed by this Resolution on the district in which it is located, and shall not be injurious to the area or otherwise detrimental to the public welfare;
 - b. The granting of the variance will not permit the establishment of any use which is not otherwise permitted in the district;
 - c. There must exist special circumstances or conditions, fully described in the findings, applicable to the land or buildings for which the variance is sought which are peculiar to such land or buildings and do not apply generally to land or buildings in the area, and which are such that the strict application of the provisions of this Resolution would deprive the applicant of the reasonable use of such land or building. Mere loss in value shall not justify a variance there must be deprivation of beneficial use of land;
 - d. There must be proof of hardship created by the strict application of this Resolution. It is not sufficient proof of hardship to show that greater profit would result if the variance were granted. Furthermore, the hardship complained of cannot be self-created nor can it be established on this basis by one who purchases with or without knowledge of the restrictions; it must result from the application of this Resolution, it must be suffered directly by the property in question and evidence of variances granted under similar circumstances need not be considered;
 - e. The granting of the variance is necessary for the reasonable use of the land or building, and the variance as granted is the minimum variance that will accomplish this purpose;
 - f. The proposed variance will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public safety, or substantially diminish or impair property values of the adjacent area; and,
 - g. The granting of the variance requested would not confer on the applicant any special privilege that is denied by this regulation to other lands, structures or buildings in the same district.

17.5 ADDITIONAL CONDITIONS AND SAFEGUARDS

The Board of Zoning Appeals may further prescribe any conditions and safeguards that it deems necessary to ensure that the objectives of the regulations or provisions to which the variance applies will be met. Any violation of such conditions and safeguards, when they have been made a part of the terms under which the variance has been granted, shall be deemed a punishable violation under this Resolution.

17.6 PUBLIC HEARING BY THE BOARD OF ZONING APPEALS

The Board of Zoning Appeals shall hold a public hearing within thirty (30) days after the receipt of an application for an appeal or variance from the Zoning Inspector or an applicant.

17.7 NOTICE OF PUBLIC HEARING IN NEWSPAPER

Before conducting the public hearing required in Section 17.6, notice of such hearing shall be given in a newspaper of general circulation in the Township at least ten (10) days before the date of said hearing. The notice shall set forth the time and place of the public hearing and the nature of the proposed appeal or variance.

17.8 NOTICE TO PARTIES OF INTEREST

Pursuant to 519.15 of the Ohio Revised Code or as in such statute as it may hereafter be amended, before conducting the public hearing required in Section 17.6, written notice of such hearing shall be mailed by the Chairman of the Board of Appeals, by certified mail, at least ten (10) days before the day of the hearing to all parties of adjoining properties. The notice shall contain the same information as required of notices published in newspapers as specified in Section 17.7.

17.9 ACTION BY BOARD OF ZONING APPEALS

Within thirty (30) days after the public hearing required in Section 17.6, the Board of Zoning Appeals shall either approve, approve with supplementary conditions as specified in Section 17.5 or disapprove the request for appeal or variance. The Board of Zoning Appeals shall further make a finding in writing that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of the land, building or structure. Appeals from Board decision shall be made in the manner specified in Section 19.6.

17.10 TERM OF VARIANCE

Until all such appropriate fees, charges and expenses have been paid in full, no action shall be taken on any application, appeal or administrative procedure.

ARTICLE 20

ENFORCEMENT

20.0 GENERAL

This Article stipulates the procedures to be followed in obtaining permits, certificates, and other legal or administrative approval under this Resolution.

20.1 ZONING PERMITS REQUIRED

No building or other structure shall be erected, moved, added to or structurally altered so as to change the physical dimensions of the building; nor shall any building, structure or land be established or changed in use without a permit therefor issued by the Zoning Inspector. Zoning Permits shall be issued only in conformity with the provisions of this Resolution unless the Zoning Inspector receives a written order from the Board of Zoning Appeals deciding an appeal, conditional use, or variance, or from the Trustees as provided for by this Resolution.

20.2 CONTENTS OF APPLICATION FOR ZONING PERMIT

The application for a Zoning Permit shall be made in writing and be signed by the owner or applicant attesting to the truth and exactness of all information supplied on the application. Each application shall clearly state that the permit shall expire and may be revoked if work has not begun within one (1) year or substantially completed within two and one-half (2½) years. 20.3 APPROVAL OF ZONING PERMIT

Within thirty (30) days after the receipt of an application, the Zoning Inspector shall either approve or disapprove the application in conformance with the provisions of this Resolution. All Zoning Permits shall, however, be conditional upon the commencement of work within one (1) year. One (1) copy of the plans shall be returned to the applicant, by the Zoning Inspector, after the Zoning Inspector shall have marked such copy either as approved or disapproved and attested to same by the Inspector's signature on such copy. One (1) copy of plans, similarly marked, shall be a placard to be posted in a conspicuous place on the property in question as a provision of this Resolution.

20.4 SUBMISSION TO DIRECTOR OF TRANSPORTATION

If the Director of Transportation notifies the Zoning Inspector that the acquisition of the needed land shall proceed, then the Zoning Inspector shall refuse to issue the Zoning Permit. If the Director of Transportation notifies the Zoning Inspector that acquisition at this time is not in the public interest, or upon the expiration of the one hundred twenty (120) day period or if any extension thereof agreed upon by the Director of Transportation and the property owner, the Zoning Inspector shall, if the application is in conformance with all provisions of this Resolution, issue the Zoning Permit.

20.5 EXPIRATION OF ZONING PERMIT

If the work described in any Zoning Permit has not begun within one (1) year from the date of issuance thereof, said permit shall expire and it shall be revoked by the Zoning Inspector, and written notice thereof shall be given to the persons affected. If the work described in any Zoning Permit has not been substantially completed within two and one-half (2½) years of the date of issuance thereof, said permit shall expire and be revoked by the Zoning Inspector, and written notice thereof shall be given to the persons affected together with notice that further work as described in the cancelled permit shall not proceed unless and until a new Zoning Permit has been obtained or an extension granted.

20.8 CONSTRUCTION AND USE TO BE AS PROVIDED IN APPLICATIONS, PLANS AND PERMITS

Zoning Permits issued on the basis of plans and applications approved by the Zoning Inspector, authorize only the use and arrangement set forth in such approved plans and applications or amendments thereto and no other use, arrangement or construction. Use, arrangement or construction contrary to that authorized shall be deemed a punishable violation of this Resolution.

20.11 STOP WORK ORDER

Subsequent to the Zoning Inspector's determination that work is being done contrary to this Resolution, the Zoning Inspector shall write a stop work order and post it on the premises involved. Removal of a stop work order, except by the order of the Zoning Inspector, shall constitute a punishable violation of this Resolution.

20.12 ZONING PERMIT REVOCATION

The Zoning Inspector may issue a revocation notice to revoke a permit or administrative approval which was issued contrary to this Resolution or based upon false information or misrepresentation in the application.

If a certified mail envelope is returned with endorsement showing that the envelope is unclaimed, then service shall be sent by ordinary mail and the mailing shall be evidenced by a certificate of mailing which shall be filed by the Zoning Inspector. Service shall be deemed complete when the fact of mailing is entered of record provided that the ordinary mail envelope is not returned by the postal authorities with an endorsement showing failure of delivery; or,
 - c. By posting a copy of the notice form in a conspicuous place on the premises found in violation.

20.14 PENALTIES AND FINES

It shall be unlawful to erect, establish, locate, construct, reconstruct, enlarge, change, convert, move, repair, maintain or structurally alter any building, structure or land in violation of any provision of this Resolution or any amendment thereto. Any person, firm or corporation who violates this Resolution or fails to comply with any of its requirements shall be fined the maximum allowable pursuant to Section 519.99 of the Ohio Revised Code or in such statute as it may hereafter be amended. Each day such violation notice is in effect shall be considered a separate offense. The owner or tenant of any building, structure, premises or part thereof, and any architect, builder, contractor, agent or other person who commits, participates in, assists in or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided.

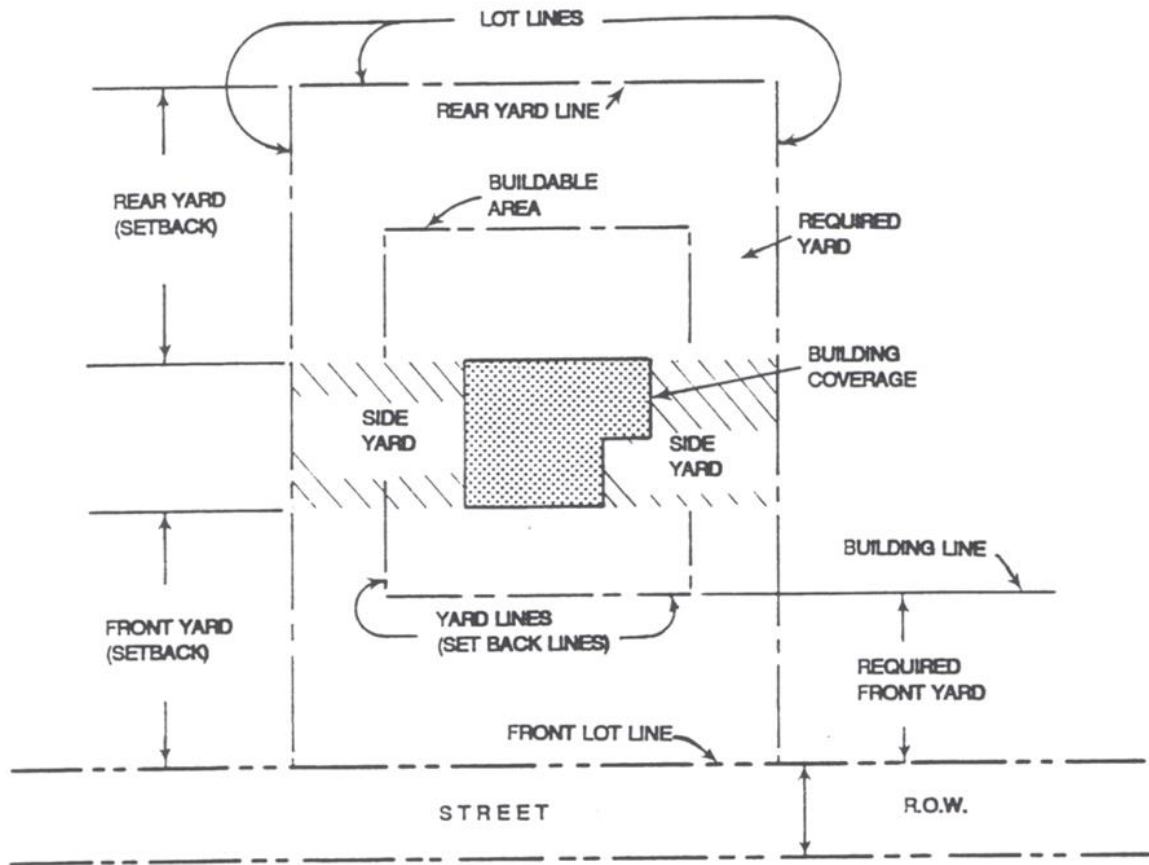

20.15 ADDITIONAL REMEDIES

Nothing in this Resolution shall be deemed to abolish, impair or prevent other additional remedies as provided by law. In the event of a violation of any provision or requirement of this Resolution or in the case of imminent threat of such violation, the Zoning Inspector, the Prosecuting Attorney or the owner of any neighboring property who would be especially damaged by such violation, injunction, abatement or other appropriate actions to prevent, remove, abate, enjoin or terminate such violation.
